this beer is wine  
when you've got to have a good time  
if you drink it all with me  
we'll remember everything  
hold on tight  
we'll go for a ride tonight  
head out to walden pond  
down and down and down and down the log

have a party on the shore  
and you can swim across  
if you can hold your breath  
you can touch the sand with your hand  
this beer is wine  
when you've got to have a good time  
if you drink it all with me  
we won't know the difference 'til the morning
