When I hit rock bottom  
And then keep going down  
And I'm talking to the mirror  
With no one else around  
When impossible to maybe  
Is as far as I can see  
I keep hangin' in  
Til' the world believes in me  
All this drama drags me down  
And drives me insane  
But nothings gonna keep me out of the game

Life is a show  
Sky diving about to let go  
Walkin' the wire with nothing below  
Don't you know  
Don't you know  
Cause life is a show  
In every shade of the rainbow  
We're jumpin' through fire  
Let's go  
Life is a show

You know you got to dig deep  
You prove it every day  
Some people leave you feelin'  
Used up and tossed away  
I tried and came up empty  
Would have gave it everthing  
But I never lost the reason why I sing  
Everything that knocks me down is making me strong  
And standing on this stage is where I belong  
(Ohhh)

Life is a show  
Sky diving about to let go  
Walkin' the wire with nothing below  
Don't you know  
Don't you know  
Cause life is a show  
In every shade of the rainbow  
We're jumpin' through fire

Let's go  
Life is a show

Once you step in the light there's no turning back  
Once your livin' the life what more can you ask  
Keeping this feeling is all that you want  
Singing your heart out and giving it all that you've got

Life is a show  
Sky diving about to let go  
Your walkin' the wire with nothing below  
Don't you know  
Don't you know  
Your life is a show  
In every shade of the rainbow  
We're jumpin' through fire  
Let's go  
Life is a show  
Sky diving about to let go  
Walkin' the wire with nothing below  
Don't you know  
Don't you know  
Cause life is a show  
In every shade of this rainbow  
We're jumpin' through fire  
Let's go  
Life is a show

Life is a show  
Cause life is a show  
Life is a show  
Life is a show  
Life is a  
Life is a  
Life  
My life is a show  
Life is a show  
Your life a show  
Your life is a  
Your jumpin' through fire  
My life is a show  
Life is a show
