Verse 1

She's like them Reeses peanut butter cups
Mm, that I love so much.
I just can't get enough,
My baby, uh
Mm, and she's hard to touch
But sometimes, she cuss too much.
But then she burn it up,
And I'll be like mm mm mm uh uh.

Hook

I remember everybody said it-
Its a love bug, you get it
But I just didn't forget it nah nah nah nah...
But ever since she put it on me
Ooh, I think she's got me
Cause now I'm feeling oh so la la la la la.

Chorus

I never knew it I could feel it so much (much),
But now I know its cause I feel it so much (much),
Even if I try I couldn't think I'm no one who does it quite
like you do
Its so much, much, much.

Verse 2

Yeah girl you fill me up
Flavour in every cup
Drop every vanilla (I clean it up) mm uh,
I guess its something you
But then you ever move
That's why I look at you
More and more.

Hook

I remember everybody said it-
Its a love bug, you get it
But I just didn't forget it nah nah nah nah...
But ever since she put it on me
Ooh, I think she's got me
Cause now I'm feeling oh so la la la la la.

Chorus

I never knew it I could feel it so much (much),
But now I know its cause I feel it so much (much),
Even if I try I couldn't think I'm no one who does it quite
like you do
Its so much, much, much.
I never knew it I could feel it so much (much),
But now I know its cause I feel it so much (much),
Even if I try I couldn't think I'm no one who does it quite
like you do
Its so much, much, much.

Trance

Day after day, time after time
You keep finding brand new ways to shine.
Never be more than that desire-
Keep me satisfied, so do something now just keep it
going-

Kardinal Offishall After

I feel it, in places
That I can't talk about on the station.
This girl's my animation
Coming to life on you to check the allegation.
I'll go to any location
Just to fill that 3D sensation.
So much in the hips and the lips,
When I see her, I lose my concentration.
Can't hold back, temptation's crazy
When I see her combination.
You'll be told that every man that see her,
Try to be part of her congregation.
She's fly, and she noticed
No she won't trust give men any conversation.
So much that I can't do nothing
But get out my seat, no standing probation!

Chorus

(Girl I know)

I never knew it I could feel it so much (much),
But now I know its cause I feel it so much (much),
Even if I try I couldn't think I'm no one who does it quite
like you do
Its so much, much, much.
I never knew it I could feel it so much (much),
But now I know its cause I feel it so much (much),
Even if I try I couldn't think I'm no one who does it quite
like you do
Its so much, much, much.
