

Kareem Salama **"Lady Mary"**

Visit "[Lady Mary](#)" on MotoLyrics.com

I can see her standing alone
All the men in the world and she longed for none
I can see her bowing her head
In that silent toom as she forges ahead
I can see her call out the name
Of the love of her life; it won't be in vain
And I know they said things that hurt
But you didn't speak a word

Chorus: And I wish I was there to defend you, Lady
Mary
And I will honor your name in my heart, Lady Mary
And I think of your love and your laugh and your tears
and the fact that you're gone, I'm so torn

And I wish I was there, Lady Mary

I can see you crying in fear
But you're like the angel that came so near
And you must know that blessed is your face
And blessed is your soul and your trace

Chorus

Oh Lady Mary, I still search for the traces of your soul
In my heart and in the hearts of the people I know
A timeless woman with something to teach
On what it's like to really be free
You were all the inspiration this man could ever need

Chorus
