Refrain:

Touch you right now

Yeah, yeah

Right now

Refrain2:

I've got to touch you right now

Try to keep it down

So nobody hears, you need to whisper

Gently in my ears

Everything you'll say, will show me the way...

I've got to touch you right now

Try to keep it down?

So nobody hears, you need to wisper

Gently in my ears

Everything you'll say, will show me the way...

I've got to touch you right now

Refrain2

I've got to touch you right now

I've got to touch you right now

I've got to touch you right now

Now, now, now, now
