Take a good look
In your own time
See the world laugh
Through a child's eyes
(Chorus)
Sunshine, shine until you're mine
It's just a magic hour
Just a magic hour
Such a magic hour
Now I know we can drift away now
If only we find a way out
Now I know we can drift away now
If only to find a way out, out, out
Take a good look
In your own time
See the world turn
Through your own eyes
(Repeat Chorus)
Now I know we can drift away now
If only we find a way out
Now I know we can drift away now
If only we find a way out, out, out
(Repeat Chorus)
Now I know we can drift away now
If only we find a way out
Now I know we can drift away now
If only to find a way out
Now I know we can drift away now
If only we find a way out
Now I know we can drift away now
If only we find a way out, out, out
Out, out, out
