If you've heard all they got to say, you looked but
turned away
Just walkaway, walkaway if you've said all you got to
say
Now the words just slip away, just walkaway, walkaway,
walkaway
That's what they say, what they say, what they say, you
gotta walkaway

If you've played all the games they play, you played
them yesterday
Just walkaway, walkaway, if you've been where they
want to go
Seen all they got to show, just walkaway, walkaway,
walkaway
That's what they say, what they say, what they say, you
gotta walkaway

Now you must believe me, you never lose your dreams
So now you must believe me, ee never lose our dreams

If you've proved all there is to prove, got nothing left to
use
Just walkaway, walkaway, if you've done all there is to
do
There ain't nothing left for you, just walkaway,
walkaway, walkaway

That's what they say, what they say, what they say
Walkaway, walkaway, walkaway
That's what they say, what they say, what they say
You gotta walkaway today
