Your'e beautiful, every time we touch
When you make me laugh, when you think to much
Your'e beautiful, without your clothes
Everybody knows, your love for me it shows
Chorus:
And it shines through, shines through
Everything we do
I need you, I need you
I want to swim across this crowded room

And whisper in your ear.

Your'e beautiful, when you're being polite
She just fell off her hair, and you gave her a light
Your'e beautiful, in your ugly shoes
You know that I still hate them, but I can stand by you

Chorus:
Because you shine through, shine through
Everything I do
I need you, I need you
I want to shout it from a rooftop, Shout it out to the
moon...

Your'e beautiful, you know it's true
I could go black, I could go blue
Your'e beautiful, there are no lies
Only the river, only the sky

Chorus:
And it shines through, shines through
Everything I do
I need you, I need you
