You were all asleep  
While I was awake  
Took me sometime  
Wake up my mistake  
They kick me in my sleep  
They kick me black and blue  
I picked up my phone  
And I called you

Got on that train  
The very next day  
You believed in me  
And what I had to say

You were all asleep  
While I was awake  
Took me some time  
Wake up my mistake; hey

Just come with me to the west coast  
A flower farm  
I forget the words sometimes  
When you play guitar

And I've been called back to the outpost  
I go there by myself  
I don't need nothing else.

When we stayed in our pajamas  
Played music all day long  
Wrote our first song

Now I've been called back to the outpost  
I got there by myself  
I don't need nothing else

Oh no!

Well it's six o'clock  
I don't wanna get up  
Wanna lie in my bed all day

Read comic books all day long  
Guess its not that bad  
At least I got a car  
And still got my job

Once had a diet  
Of parties, friends and dreams  
Playing lonestar and the planets  
Running through the trees

Now I've been called back to the outpost  
I go there by myself  
I don't need nothing else.

When we stayed in our pajamas  
CD's on the floor  
The damn cat from next door

Now I've been called back to the outpost  
I go there by myself  
I don't need nothing else  
Nothing else

I've been called back â€¦ I have been called back  
I go there by myself  
I don't need nothing else.
