"Sanctuary"

People, places
Names and faces
They come and they go, leaving traces
Sometimes my world gets filled with so much noise
That my heart gets pulled away
But I find my peace in you

And if I seek, I will find.
A treasure in you that time can't take away.

(Chorus)
Sanctuary
Pure and holy
In a secret place I'll find you there.
Sanctuary
Pure and holy

In a secret place I'll find you there.
I'll find you there

(Repeat verse and chorus)

Oh to be washed in the water of your holy words
And oh to be healed by the touch of your hands

In your sanctuary
Pure and holy
In a secret room I'll find you there.
Sanctuary
Pure and holy
In the secret room I'll find you there.
I'll find you there
