//Your love is pure
Your love is precious
Your love is all i need
Your love surrounds me
Your love astounds me
Your love is everything//

I run to you
My heart is weak
I cling to you
Your all i see
It's my hearts desire
To be close to you
Is here in your arms
I'll find my strength

Your love is pure
Your love is precious
Your love is all i need
Your love surrounds me
Your love astounds me
Your love is everything

I run to you
My heart is weak
I cling to you
Your all i see
It's my hearts desire
To be close to you
Is here in your arms
I'll find my strength

////Everything I want
Everything I hope in
Everything my heart cries out for////

Everything I want
Everything I hope
