(As of me)

Som av meg  
Som ild i har  
var du her

Jeg kunne v'rt alt du er,  
alt du var, og alt du ville bli  
Alle morke tanker ville vike i vart liv  
jeg skulle elsket deg, skulle gitt deg mitt blod  
Og om du ville hadde jeg levd for deg

Som av meg  
Som ild i har  
var du her

Jeg kunne v'rt alt du er,  
alt du var, og alt du ville bli  
Fantes det en evighet, sa var den til for oss  
Jeg skulle ha sett for deg nar solen sank i hav  
Og om du ville hadde jeg dodd for deg

Om jeg ser tilbake  
pa alt det som var  
Jeg foler hva jeg folte og vet at ingen noen gang  
vil komme sa n'r

Som av meg  
Som ild i har  
var du her

Jeg kunne v'rt alt du er,  
alt du var, og alt du ville bli  
Tiden skulle bli en venn vi begge fant igjen  
Men nar jeg ser deg ga na, vil jeg den skal ga med deg  
Og viske ut den veien vi hadde lagt ut pa

(ENGLISH)

As of me  
As fire in hair

were you here

I could have been all you are,  
all you were, and all you wanted to be  
All dark thoughts would yield in our life  
I should have loved you, should have given you my  
blood  
And if you wanted, I would have lived for you

As of me  
As fire in hair  
were you here

I could have been all you are,  
all you were, and all you wanted to be  
Were there an eternity, then it was there for us  
I should have seen you when the sun set in the sea  
And if you wanted, I would have died for you

If I look back  
at all that used to be  
I feel what I felt and I know that no one  
will ever come quite so close

As of me  
As fire in hair  
were you here

I could have been all you are,  
all you were, and all you wanted to be  
Time was to become a friend we both rediscovered  
But when I see you leaving now, I want it to go with you  
And erase the path we had set out upon
