"When You're In Love"

Visit "[When You're In Love](#)" on MotoLyrics.com

Verse 1:

There you are
In front of me
And there's no need for words
The emotions complete
My closest friend
The one that I need, and the one who needs me
Like a song on repeat
Loneliness has up and gone
When you find the one
All the colors are warm

Chorus:

When you're in love
The stars shine much brighter
The sky up above
Is bluer than blue(its funny how)
When you're in love
Your eyes open wider
The world is brand new
That's how it feels
When you're in love

Verse 2:

Here we are
We walk hand and hand
No where special to go
No major plans(ooohh)
We run around
With love in the air
And I'm smiling inside
Cause I know someone cares
Took a while, but I can feel it now
If words can't describe
Let me try and sing it out loud

Chorus:

When you're in love
The stars shine much brighter
The sky up above
Is bluer than blue(funny how)

When you're in love
Your eyes open wider
The world is brand new
That's how it feels
When you're in love
In love

Hook:
Finally,
I know how it feels
To take a love song
And sing it for real
Finally,
This piece in my heart
And stress don't bother me
I've got somebody there for me...
And

Chorus:
When you're in love
The stars shine much brighter
The sky up above
Is bluer than blue(funny how)
When you're in love
Your eyes open wider
The world is brand new
That's how it feels
When you're in love
