"First Love"

There for me, through all of my ups and downs
And what I feel you always seem to know
You find the words, when I need comforting
And dry my eyes, that's why I love you so

More than a friend you're my first love
I can always depend on my first love

I feel like I have known you all my life
I can't explain how close we are
When something's wrong, you know how to make it
right
That's why you stay close to my heart

More than a friend you're my first love
I can always depend on my first love

The first thought in my mind
the chill up my spine
the melody in my heart

You are my very first love

You're the Sweet lullaby
my first kiss goodnight
the beat of my heart, music
My very first love

More than a friend you're my first love
I can always depend on my first love
With you in my life I'm not lonely at all
And if there were tears (yeah) you'd catch them all
Cuz you know my pain, and you know my joy
There's no secrets between us only pretty piano chords

The first thought in my mind
the chill up my spine
the melody in my heart

muuuuusic my very first love

You're the Sweet lullaby

my first kiss goodnight
the beat of my heart, music
My very first love

I sing because I'm happy but music sets me free
You're sweet lullaby a first kiss goodnight
The beat of my heart music, my very first love
(Oh Oh Oh)

You are more than a friend you're my first love
I can always depend on my first love

You are more than a friend you're my first love
I can always depend on my first love
(Woah oh)
My first love
