this goes out to all my girls whose goin through it
(through it)
turn this up in ya speakers now, and sing along to it (to
it)
this goes out to all my girls whose goin through it
(through it)
turn this up in ya speakers now

this isn't the first time, we didnt speak after we had a
fight
but i think it's the last time, cause i saw you with
another girl tonight
i'm wondering if you told her that we were over
watching you hold her, head on ya shoulder.. rightt
almost immediately turned around to leave, i guess i
shoulda stayed home tonight

(Chorus)
and it's really killin me
tell me thats not how ya feel
and all that's left of me
is slowly breaking inside
really makin me, makin me, makin me go half crazy
why you gotta be, gotta be, gotta be that way baby
i was the last to find out
do you know how that broke me down, me down, me
down
sometimes i sit alone and i cry
everything is unclear and it's lookin so hazy
tell me why you had to heartbreak me
so what do you do when
somebody makes a fool of you?
none of the things they said were true (were true)
do you stop persuing, a love that will never become
what you need it to be
cause i'm emotionally touched
when people see me i say
i say that i'm alright
but im just pretending (yeah, yeah)
gotta make some sense of this, i can't believe you'd do
me this way
(Chorus)

and it's really killin me
tell me thats not how ya feel
and all that's left of me
is slowly breaking inside
really makin me, makin me, makin me go half crazy
why you gotta be, gotta be, gotta be that way baby
i was the last to find out
do you know how that broke me down, me down, me
down
sometimes i sit alone and i cry
everything is unclear and it's lookin so hazy
tell me why you had to heartbreak me
i thought it over and over, and i
know i'm better off but it still hurts me so bad
and i don't understand, i don't understand

ladies if you've ever been in love before
and the boy that you loved didn't love you nomore
say yeah, say yeah, say yeah

this goes out to all my girls whose goin through it
(through it)
turn this up in ya speakers now, and sing along to it (to
it)

this goes out to all my girls whose goin through it
(through it)
turn this up in ya speakers now
(Chorus)

and it's really killin me
tell me thats not how ya feel
and all that's left of me
is slowly breaking inside
really makin me, makin me, makin me go half crazy
why you gotta be, gotta be, gotta be that way baby
i was the last to find out
do you know how that broke me down, me down, me
down
sometimes i sit alone and i cry
everything is unclear and it's lookin so hazy
tell me why you had to heartbreak me
