"Once In My Life"

Visit "[Once In My Life](#)" on MotoLyrics.com

When the stars are aligned
And the sun has laid to rest
Keep me warm through the night
So I will never need nobody else
Cause when your energy takes a hold of me
I just can't control myself
Is not a mystery just a constant... that keeps going on
and on
And it's us tonight cause this time I take my chance
Let's get all tonight gonna take this moment
Or once in my life
Once in my life
Once in my life

Now it's time to unfold
I have been locked up way too long
No regrets I don't care we are just living for the
moment
Cause when your energy takes a hold of me
I just can't control myself
Is not a mystery just a constant... that keeps going on
and on
And it's us tonight cause this time I take my chance
Let's get all tonight gonna take this moment
Or once in my life
Once in my life
Once in my life

I wanna be the one to take you there
Make you believe like you have been broken
Don't wanna leave on this beautiful night
For once in my life

And it's us tonight cause this time I take my chance
Let's get all tonight gonna take this moment
Or once in my life
Once in my life
Once in my life
