Never thought that I would feel this way about someone
like you, uh
You're everything I'm not but I sing why
My friends tell me 'that boy no good for you'.

Something in his mouth, something about his style

Keeps on pulling me deep down inside,
You'll never know you're gonna love
You got my heart scream and laugh
And I'm singing

Ohh, you got my heart singing ohhh
And it all started with you.
Uhh uhh, it started with youuu
Uhh uhh.
And it all started with you

Never ever care what they say
'cause baby you're all that I need, uhh
I said I'd think about what we shared
'cause you bring the best out of me.

Something in his mouth, something about his style
And keeps on pulling me deep down inside,
You'll never know you're gonna love
You got my heart scream and laugh
And I'm singing

Ohh, you got my heart singing ohhh
And it all started with you.
Uhh uhh,
Boy it started with youuu
Uhh uhh, oh oh yeah

I don't care what my mama say
I don't care what my friendgot to say
Just as long as it's you and me
see love started, love started with you.
