[Verse 1:]

There you are in front of me
And there's no need for words
The emotions complete
My closest friend the one that I need
And the one who needs me
Like a song on repeat
My loneliness has up and gone
When you find the one all the colors are warm

[Chorus:]

Because when you're in love
The stars shine much brighter
The sky up above is bluer than blue
When you're in love your eyes
Open wider the world is brand new
That's how it feels when you're in love
In love

[Verse 2:]

Here we walk hand in hand
No where special to go no major plans
We run around with love in the air
And I'm smiling inside because I know someone cares
It took awhile but I can feel it now
If words can't describe let me try and sing it aloud

[Chorus:]

Because when you're in love
The stars shine much brighter
The sky up above is bluer than blue
When you're in love your eyes
Open wider the world is brand new
That's how it feels when you're in love
In love

[Bridge:]

Finally I know how it feels
To take a love song and sing it for real
Finally there's peace in my heart
And stress don't bother me

I've got somebody there for me

[Chorus:]

Because when you're in love

The stars shine much brighter

The sky up above is bluer than blue

When you're in love your eyes

Open wider the world is brand new

That's how it feels when you're in love

In love
