Resolution road

Who's your friend and who's your foe?

How do you tell the one from the other?

Who's on the inside, who's undercover?

Who looks like you do?

Resolution road

Round and round and round we go

Who makes the circle and who's in the middle?

Who talks in reasons and who talks in riddles?

Who looks like you do?

CHORUS

Don't speak without thinking

Don't sleep with a stranger when you're drinking

And don't jump in a ship when it's sinking

Resolution road

Learn to speak your heart in code

Try to embody the laws of encryption

And try to defy all the laws of description

Who looks like you do?

Resolution road

Buy a ticket for the show

Who talks in riddles, who talks in reasons?

What kind of endings do you believe in?

Who looks like you do?

CHORUS X 2

Resolution road

Who's your friend and who's your foe?

How do you tell the one from the other?

Who's on the inside, who's undercover?

Who'll be your Lazarus? Who'll be your lover?

Who looks like you do?

Who looks like you do?

Who looks like you do?
