Girl I'm done being your best friend, best friend, best friend

I got you mine, best friend, best friend

Cuz Ive been close to your baby

best friend x 3

Girl I'm done being your best friend, best friend, best friend

I got you mine, best friend, best friend

Cuz Ive been close to your baby

[verse1]

Listen up

something that we need to talk about, girl

you are now know that we are connected in a very special way

I can't go on, I'm pretend like I'm not in love with you

In the sense that you feel the same

But you hold them back on me

Oh no,

When I'm reaching you everyday

Why is that you push me away

You are scared that I'm fall in love with you

Girl, don't say

Pretend to be this way

Just let me show you how

And I prove that I'm the perfect guy

[verse2]

Girl you always call on me
When you are going through the loved sites
As you can always count on me to make you feel alright
manage to make you laugh
know how to make you smile
being together feel so alright
but you won't be there

Oh no,
When I'm reaching you everyday
Why is that you push me away
You are scared that I'm fall in love with you
Girl, don't say
Pretend to be this way
Just let me show you how
And I prove that I'm the perfect guy
