It's Karl Wolf
And P Reign
Peace out baby

Help me understand how everything we were
This isn't what we are
You understand just how I'm feeling right now left in
the dark
I gave you chances mama I gave you chances girl
I even had my whole world
Wrapped 'round your finger girl girl
I just wanna leave it
I just wanna go
I can't believe I'm here so I'm about to peace out
Peace out peace out, I'm out of here baby
Peace out peace out, peace out, peace out I'm out of
here baby.
Peace out

Girl just go about your shady ways don't even try to
find me,
Consider me history like Atari, like Atari
Peace out peace out peace out, I'm out of here baby
Peace out

Remember the time I gave you everything
And you had it like that, right there
But your love's a crime, usin' up my heart and now
there's nothing left,
Oh

I gave you chances mama I gave you chances girl
I even had my whole world
Wrapped 'round your finger girl
I just wanna leave it
I just wanna go
I can't believe I'm here so I'm about to peace out

Peace out peace out, I'm out of here baby
Peace out peace out, peace out, peace out I'm out of
here baby.

Peace out

Girl just go about your shady ways don't even try to
find me,
Consider me history like Atari, like Atari
Peace out peace out peace out, I'm out of here baby
Karl, I gotcha homie
Peace out

My homies tried to warn me,
I couldn't believe it,
Say cheese for me,
Now picture me leavin',
You must think I'm crazy,
Like I went up and walk,
They call me Ripley's? baby,
So believe it or not,
She only slip on a rapper for a chance to be famous,
Yeah I bought you a bass,
But good luck with those payments,
Funny how was once love is now turn into strangers,
Sex out of this world like we made love when you rain,
Karma's comin' for you,
Guess what he came today,
'Cause I got your best friend's number,
She's hotter anyway,
It's time you feel the burn,
Your fight is on the way,
And yeah you had your turn but now I gotta say

Peace out peace out, peace out I'm out of here baby
Peace out peace out, peace out, peace out I'm out of
here baby.
Peace out

Girl just go about your shady ways don't even try to
find me,
Consider me history like Atari, like Atari
Peace out peace out peace out, I'm out of here baby
Peace out
