she got me noticing her form far
look how she walks, look how she smiles,
can't tell me that she ain't no star!
can't see her eyes cause she's wearing shades,
i'm pretty sure they look good either way,
dam, she look fine, damn she look hot,
i guarantee this girl is living with me!

chorus: (x2)
shawty is bad,
shawty is so bad!
got me knocked down, i don't know why,
must be a superstar!
must be a superstar!
must be a superstar!
must be a superstar!

freeze girl! don't go nowhere, i'm coming back,

please don't leave girl!
let me grab a drink so we could sip on something, girl
don't hesitate to ask for another glass!
..my pockets for you,
girl you..., girl you're blowing,
no doubt about it, girl you must be someone important!
uhuu, let's just leave, girl
we're going back to my place,
tonight i dedicate it to you!

chorus: (x2)
shawty is bad,
shawty is so bad!
got me knocked down, i don't know why,
must be a superstar!
must be a superstar!
must be a superstar!
must be a superstar!
