Love is like the wind  
Sometimes it blows your way  
And until now  
It missed me somehow

But when I turned around  
I saw you standing there  
The sound of your voice  
I had no choice

I used to have a wish  
One day I'd feel like this  
Now I know love exists  
'Cause it's standing right next to me

Beneath the moon tonight  
I see it in your eyes  
No more false starts  
No more broken hearts

I used to have a wish  
One day I'd feel like this  
Now I know love exists  
'Cause it's standing right next to me

Even in the dark  
Even when you're gone  
I feel you in my heart

I used to have a wish  
One day I'd feel like this  
Now I know love exists  
'Cause it's standing right next to me

Standing right next to me
