Dickie 6 - "This here's Dickie 6, I need a radio check my one point seventy nine, come back"

Black Dong - "You got Black Dong here, biggest and most powerful thing in the world, back"

D6 - "Yeah, Black Dong, I just left the titty car wash in Hurricane. They got a fourteen year old girl in the cabin with Daddy puttin' her hand on the stove, trying to put the fear of Jesus in her and I'm just trying to appeal to her better side."

BD - "Hey, hey, that's all fine and dandy. I'm travelling up 79, going past Charleston. Might stop off and see a little honey of mine named Alison. But I'm really looking for Bald Knob, you got your ears on? What's your twenty Knob?"
