Verse:

Stay  
I never meant for it to end this way  
Despite what other people say  
I don't wanna be apart  
Please don't go  
See the problem is I'll miss you so  
And I have nowhere else to go  
But the shelter of your heart

Interlude:

Please don't cry  
I can see tears in your eyes  
It's gonna be all right  
Baby trust me just this time

Verse:

Just wait  
I don't want for this to go away  
I'd rather stay in bed all day  
Covered in your arms  
I know I'm right  
Just imagine us covered in light  
Makin love after midnight  
Underneath the stars

Chorus:

And I love you  
Baby you're beautiful, baby you're beautiful  
And I need you  
Baby you're beautiful, baby you're beautiful, you...

Verse:

I wanna be your girl  
We could play guitars, travel the world  
Pretend it's one big blue/green pearl  
That only we could share  
And I wanna dance with you  
We'll close our eyes and spin under the moon  
And soon  
We'll fall, but we won't care

And Iâ€™ll sing songs in your ear  
Youâ€™ll whisper to me, â€œI love you my dearâ€  
Itâ€™s clear  
And now I realize  
We donâ€™t need money  
Just kiss me in every country  
Run your fingers down my body  
Make me feel alive

Chorus:

And I love you  
Baby youâ€™re beautiful, baby youâ€™re beautiful  
And I need you  
Baby youâ€™re beautiful, baby youâ€™re beautiful, you...
