The stars will remember  
The night we said goodbye  
The stars will remember  
So will I

A rose as a token  
A kiss that brought a sigh  
The stars will remember  
So will I

And now the stars and I  
We share the lonely lane  
But in my solitude  
It seems I hear you call my name

The world may forget you  
As time goes passing by  
The stars will remember  
So will I

The world may forget you  
As time goes passing by  
The stars will remember  
So - will - I...
