The change of the tone  
Changing my mind  
Changing the weather  
I feel it at first  
A blow from the dark  
Take it for better

Still I remind myself  
How I define myself

Blackened and bruised  
Coming up clean  
Bound to get better  
Blessed with a curse  
Hoping I fall  
(The) Deeper the better

I needed, I needed to know  
I needed, I needed to know why  
Oh no, this can't be happening  
Oh no, this can't be happening

Pain is a door  
A fever burning for more  
A red light in your mind and I feed on  
You must have been so surprised to see  
There you were staring back at me  
Caught in a web  
Now out on your own  
You've got nothing to stay for  
So you keep saying

This year it's coming  
Guess what we're running from  
Too late for running  
The stitches are coming undone  
Grab your belongings  
The exit is near  
Making your way through indecisive needs

I needed, I needed to know  
I needed, I needed to know why

Oh no, this can't be happening  
Oh no, this can't be happening

This man is meant to die  
You're colour blind in this madness  
I'll bury a mountain for your love  
A crooked man you'll die  
Loud Excuses pouring out a child  
The same SOS you sighed  
But make room for laughter  
Your man tried here.

This water's dark and cold  
God's not where you hoped  
It's a moment come and gone

It's too late baby  
Call out mayday  
While I'm still alive  
It don't matter I don't want this to end  
I don't want this to end,  
I don't want this to end,  
I don't think this will end well

Hey, there goes my love again  
No one's coming now  
Hey, I'm out on my own again  
Fading faces broken frowns  
Hey, I guess I fucked up again  
No one will find out  
Hey, stare at your feet again  
Don't say you don't know

This water's dark and cold  
God's not where you hoped  
His moment had come and gone  
It's time we all moved on  
It's time we all moved on  
It's time we all moved on

Still I remind myself  
How I define myself  
Still I remind myself  
How I define myself  
I needed to know  
I needed to know  
I needed to know
