Everything must change  
Nothing stays the same  
Everyone will change  
No one stays the same

The young become the old  
And mysteries unfold  
'Cause that's the way of time  
Nothing and no one goes unchanged

There are not many things in this life  
That you can be sure of  
Except the rain comes from the clouds  
The sun lights up the sky  
And hummingbirds do fly

Winter turns to spring  
A wounded heart will heal  
But never much too soon  
Yes, everything will change

'Cause there are not many things in this life  
That you can be sure of  
Except the rain comes from the clouds  
The sun lights up the sky  
And hummingbirds do fly

Winter turns to spring  
A wounded heart will heal  
But never much too soon  
Yes, everything must change

There are not many things in this life  
That you can be sure of  
Except the rain comes from the clouds  
The sun lights up the sky

The rain comes from the clouds  
The sun lights up the sky  
The rain comes from the clouds  
The sun lights up the sky  
And music, sweet music, makes me cry

Everything will change
