Fuck you...[x6]...all  
How the fuck do you tell me  
How to fuckin' do this song  
You'll never lead my life  
So you'll never understand  
Why the fuck I do the things  
That I do everyday

Don't come up to me  
Don't you say that we are free  
You can take your stupid  
Love and peace power  
I'm in love with beer  
All you fuckin' bastards  
Can just fuckin' go away  
'Cause you make me sick to my brain

Fuck you, Fuck you  
Fuck you....[x6]...all

All you fuckin' bastards  
Try to make me sick  
Every fuckin' chance you can  
You try to make me fall  
Every fuckin' chance you can  
You try to preach to me  
But you'll never understand  
I just wanna be free

We are leavin', leavin' in our time  
So do it fuckin' now  
Every fuckin' now  
Every fuckin' chance you can  
You just bring me down  
I can't take no more  
Of all your fuckin' lies  
So All I hate to say to you now is  
Fuck you, Fuck you  
Fuck you....[x6]..All

I don't like your kind  
I never liked it before

So why why don't you just  
Go away and fuckin' die now

I just had enough of it  
I'm really sick of the brats  
So listen all of you this time

Fuckin' just let me be  
Gonna get drunk and  
You're not gonna get to me  
Gonna fuckin' break some bottle  
And not gonna give a damn  
I'm just gonna make my own Rules

Fuck you...[x2]...Fuck you...[x2]...  
Fuck you...[x2]...All  
Fuck you...[x6]...All

I hate the whole fuckin'  
Fuckin' stupid world  
Every single time I realize  
That I hate every fuckin' life  
You never led my life  
You'll never understand  
Why I have to lead the life  
That I fuckin' lead  
Why you fuckin think you understand  
Our fuckin' way of life  
But you'll never understand mine  
Fuck you...Fuck you...[x3]...All
