Sick of the pranks you play
always on me, fuckin' insane
I can see you all the way
Always cool without the brains

You put your pride above it all
what's gonna happen to you when it falls?
You're a big shot, or that's how you play
with no life, and no friends

Then you stalk without no rules
pansies do what you think's cool
but that doesn't press by what you do
can't you see that you're a fool

You put your pride above it all
what's gonna happen to you when it falls?
You're a big shot, or that's how you play
with no life, and no friends
Sick of the pranks you play
always on me, fuckin' insane
I can see you all the way
Always cool without the brains

You put your pride above it all
what's gonna happen to you when it falls?
You're a big shot, or that's how you play
with no brains, and no friends
