Fucking preachers at your school
they all know what's right for you
Fucking preachers at your work
They know what's right or wrong

Fucking preachers at your church
In the name of God they control the poor
Fucking preachers in the scene
I know your political schemes

Preachers at your school
Fuck all the schools
Preachers at your work
Fuck all kind of work
Preachers at your Church
Fuck their religious wars
Preachers in the scene
Fuck them all

Fucking preachers at your school
Trying to brainwash all the youth
Fucking preachers at your work
Give us numbers to keep us under surveillance
Fucking preachers at your church
They are the devils hand, God hates them the most
Fucking preachers in the scene
I know your fucking political schemes
