Controlling the underground  
Creating bands & labels

*[Chorus]*

Who's in control? / I question all the bands  
Who's in control? / I question all the clubs  
Who's in control? / I question all the labels  
Who's in control? / I question everyone

-

A club is having trouble? Give them all no doubt?  
Throw another benefit? Cause punk is DIY?

*[Chorus]*

The new bands arrive they talk how punk  
They are but no one seems to care  
All they want to be is rockstars

*[Chorus]*

It's hard to see the enemy when it is all around us  
You've got to think for yourself and question everyone

*[Chorus]*
