See, see how she dances  
With that cigarette  
In her hand

And she, she romances  
Everybody  
Like she can

She, brings the light  
It Catches me, again

Life, I've seen some wonders  
I played my stupid games with you  
Sing to me like i know you can  
But girl would i be

She knits a snare, catches me  
Again

I guess, you know, to keep on, dancin'

Like i know you can

We're gonna make it through  
We're gonna make it through now  
Cos we're gonna make it through  
We're gonna make it through now

And the circus leave this town

We're gonna make it through  
I said we're gonna make it through now

Yeah we're gonna make it through  
I said we're gonna make it through now

And the boys with their dreams  
For the boys and their dreams

I know you can hear me
