Do you think  
That you've come far  
Through winds so hard  
And are you as disgruntled  
As you appear  
Are you wishing that I wasn't here  
Well one day soon that dam is gonna break  
And it'll wash you away,  
it'll wash you away  
Yeah one day soon that dam is gonna break  
And it'll wash you a-way,  
it'll wash you away  
From me

Do you know love  
Do you push it be-low you  
Or does it own you And are you as un-grateful  
As you appear  
Are you wishing I wasn't here  
(Repeat chorus)  
And that's the best damn thing  
That could happen to you  
Yes that's the best damn thing  
That could happen to you x 4  
For you
