Put it into gear we've got a long way to go
You can play your dylan
When we have to take it slow
And everytime you lose your mind
From driving in your bed
There's another world just waiting up ahead
So you just drive mr baylis
Don't you worry 'bout the weather
I asked the rain to hold off
And so far it looks just fine
We're only half way through our journey
But I think we're gonna make it
And you can sleep when darkness comes around
Cos this roads the only thing that holds you down

Well clear your mind we don't have time to plan
You can leave your worries
We'll out run them if we can
And when your blind from white lines
And your eyes are turning red
There's another world just waiting up ahead

So you just drive mr baylis
Don't you worry 'bout the weather
I asked the rain to hold off
And so far it looks just fine
We're only half way through our journey
But I think we're gonna make it
And you can sleep when darkness comes around
Cos this roads the only thing that holds you down

And even my weakness says we're gonna be just fine
And staying is the last thing on my mind

So you just drive mr baylis
Don't you worry 'bout the weather
I asked the rain to hold off
And so far it looks just fine
We're only half way through our journey
But I think we're gonna make it
And you can sleep when darkness comes around

Cos this roads the only thing that holds you down
