Come down hail the name I'll haul  
You've got the soul of in  
And don't even don't even try  
Just black, like a smoking gun  
You've got no rhythm but you know how know how to  
run.

At the narc we've ran u-u-u-hu  
They will do you no harm u-u-u-hu  
U-u-u-hu u-u-u-hu

My music maybe will follow you down  
To where the execution oh would bring me back around  
Hey, what you're troubled down?  
To where the execution oh would bring me back around  
Bitch slap beauty when you picked me a smile  
Ain't got control, but I know

That you can digg my style  
Blow out fusses when the new town skunk  
You've got no rhythm but you know how know how to  
run.

At the narc we've ran u-u-u-hu  
They will do you no harm u-u-u-hu  
U-u-u-hu u-u-u-hu  
At the narc we've ran u-u-u-hu  
They will do you no harm u-u-u-hu

Maybe they'd followed you down  
To where the execution oh would bring me back around  
Heyy, what you're troubled down?  
To where the execution oh would bring me back around

(Maybe my music) repeats x5
