It's comin round again slowly creepin in  
time in it's command soon enough it comes  
settles in it's place shadow in my face  
puts pressure in my day

chorus

This life well it's slippin right through my hands  
these days turned out nothin like I had planed

It's comin round again slowly creepin  
in time in it's command  
settles in it's place  
shadow in my face puts pressure in my day  
soon enough it comes here it is again  
slowly creepin in time in it's command  
soon enough it comes settles in it's place  
shadow in my face dignified in lace

CHORUS

This life well it's slippin right through my hands  
these days turned out nothin like I had planed  
control well it's slipp'in right through my hands  
these days turned out nothin like I had planed  
soon enough it comes soon enough it comes this life  
well

This life well it's slippin right through my hands  
these days turned out noth'in like I had planed  
control well it's slippin right through my hands  
these days turned out nothin like I had planed  
rep.

it's comin round again( x 3)
