[Verse 1:]

(I hate it)

When I gotta see you go

(Irritates me)

When you gotta play the role

(So frustrated)

Soon that your feelings show

And I don't know

(Why I)

Gotta feel the way I do (you)

Gotta do the things you do (do)

To leave me stuck without a clue baby

[Hook:]

I know you hood, I know you're hot,

You're popular, like a star

You making moves, nice car

With a lot of respect on the block

[Chorus:]

But do you think about me

When we say goodbye

And we hanging up

When your dreaming, do I ever interrupt

When my name pops up

Do you get excited

Do you think about it

When I leave your house

Does it mess you up

Make you wanna call

Just to keep in touch

Do you get caught up

All I wanna know is

Do you miss your girl

[Verse 2:]

(Can't stand it)

When you get around your crew

(You pathetic)

With your little attitude

I don't get it

What am I supposed to do

When you start acting new
Oh (Have a hug, have a kiss)
You never give it like this
I'm kinda suspicious
Feels like love with a twist
And I can't get used to this baby

[Hook:]
I know you hood, I know you're hot,
You're popular, like a star
You making moves, nice car
With a lot of respect on the block

[Chorus]
But do you think about me
When we say goodbye
And we hanging up
When your dreaming, do I ever interrupt
When my name pops up
Do you get excited
Do you think about it
When I leave your house
Does it mess you up
Make you wanna call
Just to keep in touch
Do you get caught up
All I wanna know is
Do you miss your girl

[Bridge:]
(I know)
I shouldn't make a fuss
(About)
You when your acting tough
(Who cares)
As long as we're in love
Nothing's gonna break us apart
(I know)
You gotta be a man
(And I'll stand)
Besides it till the very end
(As long)
As you can make a few things clear

[Chorus: x2]
But do you think about me
When we say goodbye
And we hanging up
When your dreaming, do I ever interrupt
When my name pops up
Do you get excited

Do you think about it
When I leave your house
Does it mess you up
Make you wanna call
Just to keep in touch
Do you get caught up
All I wanna know is
Do you miss your girl

Do you think about me(think about)
When we say goodbye
And we hanging up(hanging up)
When your dreaming, do I ever interrupt
When my name pops up (name pops up)
Do you get excited
Do you think about it (think about it)
When I leave your house
Does it mess you up (oh)
Make you wanna call
Just to keep in touch
Do you get caught up
All I wanna know is
Do you miss your girl

Do you miss your girl
Do you miss your girl
Do you miss your girl
Do you miss your girl
Ohhh
