"Dam"

Do you think
That you've come far
Through winds so hard
And are you as disgruntled
As you appear
Are you wishing that I wasn't here
Well one day soon that dam is gonna break
And it'll wash you away,
it'll wash you away
Yeah one day soon that dam is gonna break
And it'll wash you a-way,
it'll wash you away
From me

Do you know love
Do you push it be-low you
Or does it own you And are you as un-grateful
As you appear
Are you wishing I wasn't here
(Repeat chorus)
And that's the best damn thing
That could happen to you
Yes that's the best damn thing
That could happen to you x 4
For you
