Put it into gear
We've got a long way to go
You can play your Dylan
When we have to take it slow

And everytime you lose your mind
From driving in your bed
There's another world
Just waitin' up ahead

So you just drive Mr. Baylis
Don't you worry 'bout the weather
I asked the rain to hold off
And so far it looks just fine

We're only half way through our journey
But I think we're gonna make it
And you can sleep when darkness comes around
'Cause this road's the only thing that holds you down

Clear your mind
We don't have time to plan
You can leave your worries
We'll out run 'em if we can

And when you're blind from white lines
And your eyes are turning red
There's another world
Just waitin' up ahead

So you just drive Mr. Baylis
Don't you worry 'bout the weather
I asked the rain to hold off
And so far it looks just fine

We're only half way through our journey
But I think we're gonna make it
And you can sleep when darkness comes around
'Cause this road's the only thing that holds you down

And even my weakness says
We're gonna be just fine

And staying is the last thing
On my mind

So you just drive Mr. Baylis
Don't you worry 'bout the weather
I asked the rain to hold off
And so far it looks just fine

We're only half way through our journey
But I think we're gonna make it
And you can sleep when darkness comes around
'Cause this road's the only thing that holds you down
