No One Can Forget This Time
When You Are In My Arms
Still That Memories Touching My Mind
With Your All Of Loveliness And Charms

I am going to discovering you
I am Going to Discovering You

I Coul'd Give Any Name To My Feeling For You
Love Is A Mere Word For Telling You
If You Want To Found The True
You Can See Inside My Heart Too

I am going to discovering you
I am Going to Discovering You

Discovering you, Discvering you

Behinde My Smile There Is Hide Sorrow
Happy On The Time Keep Worryes For Tomorrow
Flowers Of First Sight Is Still Bloom
Still You Are Shining In My Mind Like Moon

I am going to discovering you
I am Going to Discovering You
I am going to discovering you
I am Going to Discovering You
Discovering you, Discvering you
