"The Forests Of Tomorrow"

Searching the truth in the forest
denying the story that believes in past
knowing there's something imposing to
come

Moon, you are my goddess
night, you are my hope
trees are the shades behind me.
Wolves, you are my courage
ravens, you are my sight
winds are the strenght in my mind.
Frozen grounds saves me from the past
close your eyes, look into the stars

feeling the truth coming out from the
dark
suprised by the greatness of might
and I look for the forests of tomorrow.
Moon, you are my goddess
night, you are my hope
trees are the shades behind me.
Wolves, you are my courage
ravens, you are my sight
winds are the strenght in my mind.
