Emptiness surrounding me  
Tearing me down, tearing me down  
Dark like a black deep space  
Voiding my soul, voiding my soul

Calmness raping my mind  
Breaking my hope, breaking my hope  
Endless fear of pain and tears  
Shatters the dreams of reality

Life is a form of million moments

And every moment is closer to a death  
Second by second drifting into torments  
Time to face the final last breath

Resurrection, no more mortals  
Desecrating life, desecrating life  
Forces of darkness  
Provocating to die, provocating to die
