"The New Gold"

Visit "[The New Gold](#)" on MotoLyrics.com

Were all prosperous and proud to be
With our holiday photos and our tickets for speed
Having kitchens installed for a family
And once in a while for making love
Look at her eyes, they're so are eager and dead
As she dances for you, more than ready for bed
But it's alright on a tuesday night
To drink up and hit it at five
Its the new gold intact
It will keep us all intact
As long as our eyes are all closed
To the coals that we just fled
You can relax
Cause were safe behind
Behind the Bush
Were in love were all occupied
With our 200 lovers in a fast moving line
Its a need you cannot deny
Its something to straighten your spine
Now we know the grim reapers on our side
We can turn to the papers and watch for the fight
Man it's warm lets just sleep outside
And see the sky reflects our fire
Its the new gold intact
It will keep us all intact
As long as our eyes all are closed
To the coals that we just fled
Its the new gold intact
That can keep us all intact
As long as our eyes are all closed
To the coals that we just fled
You can relax
Cause it's far away
Were safe behind
Behind the Bush
