### "The Weapon"

Where's the true knowledge? This weapon has to rise  
upon  
the shadows of heaven to equality that will mean  
salvation  
Where's our progress?  
Our holy acquisition of socialisation brought dirty  
sow  
and misery earased all self achivement  
This is the weapon to set their heart on fire  
This is the war which has to be done  
(repeat)

We don't want to provide our process built inside,  
burn in hell!  
Clean your hands in consciousness and dirty bodies  
will burn in hell  
Burn in hell!  
They don't know hope! They don't know life! They don't  
know joy!  
...but they know fear!

This is the weapon to set their heart on fire  
This is the war which has to be done

This is the war  
This the weapon... the only weapon!
