He tells her the truth about his life since she doesn't know what's real and what isn't? You know mine, you know I can't go anywhere unless I know how you feel about me? You hate me, no maybe you love me in some strange way and that's why your trying to "FIX" me? Is the accident you had, is that my fault too? There's nothing that I've done right in my whole life so that probably has something to do with me and if it does how do I help you? What do you want from me? You married someone else, are you still married and just trying to get rid of me? How can you love her and love me? It's the reason I won't have anything to do with you, I don't want to talk to you, I don't want to see you again, I don't want you in my life anymore..no songs, no phone calls, no radio,cd players. You can't love and marry someone else and have feelings for me still, if so your idea of loving someone and mine are so far apart that it's not acceptable to be "real LOVE'.I belive that if you fall in love just once in your life your luckey. Your making me more crazy then I already am? Is this the reason why-revenge because I wouldn't leave you alone? I'm taking stupid pills to make me have a normal thought process, it's not working so I'm going to get more pills, that way I'll stop thinking altogether and you won't matter to me so hang in there Baby, I'm trying to fix me on my end too.The sadest part is I have a feeling you own my heart,my body,and all my emotions..scares me to a point that God's gonna hide me for the rest of my life. A "normal" person could have handled what you did to me 30 years ago, what I did to me, It runs in our family, Having only one oar in the water...Does it feel good, yes for some reason I'm not scared of me at all, I don't have hatred as number on on my list- you seem to think I'm full of it..think this way instead GOD and I have a thing going and he's the one who takes that emotion away from me,not you. I love you weather you like it or not- end story please
