Ay, oh, ohooo
[x3] Be remembered

[Verse 1]

Gotta show the world watcha got
Pick a place go head pick a spot
Waiting for your time to shine
Make it happen now
Its a long way there to the top
Never see the top if ya stop
Close your eyes and roll the dice
For the finer things in life

Ay, ay
Dont you wait until its to late
Dont wanna face that heartbreak
No, no one should have to feel that pain
If your really lookin for a new day
Feel the rythm of your body
Let the music

[Chorus]

Act like ya want it
Live for the moment
Dont miss your chance to
Step up and be remembered

Enjoy the music
Get up and do it
Tonights your night to
Step up and be remembered
[x3] Be Remembered

[Verse 2]

See the stars are all in a line
In your favor I can see the light
See the fire in your eye
Dont you blink it just might die
Motivate yourself n come with it
Be yourself n live for a minute
Hope you find a paradise
Its your destiny tonight

Ay, ay
Dont you wait until its to late

Dont wanna face that heartbreak
No, no one should have to feel that pain
If your really lookin for a new day
Feel the rythm of your body
Let the music

[Chorus]

Act like ya want it
Live for the moment
Dont miss your chance to
Step up and be remembered

Enjoy the music
Get up and do it
Tonights your night to
Step up and be remembered
[x3] Be Remembered

This is your time
My Time
Right to the end we gon shine
Gonna bless us for all time
And we gonna shine yourself forever
It is good to know
That we are moving on
Theres the stress and struggle
But we are standing strong
Stand up and be remembered
Get up and be remembered

[Chorus]

[x2]
Act like ya want it
Live for the moment
Dont miss your chance to
Step up and be remembered

Enjoy the music
Get up and do it
Tonights your night to
Step up and be remembered
[x3] Be Remembered
Step up and be remembered
[x3] Be Remembered
Step up and be remembered
