Ft. Busta Rhymes

I'm gonna take what's mine tonight
Lay it on me, I won't fight it
You can throw like it ignite
You can have whatever you like
Like body to body, swept down my pace
Your body's my hobby, swept down your pace
Like body to body, swept down my pace
Your body's my hobby, swept down your pace
I switch them, change them if they don't act right
Not another can no other ever match my flight
I lay it down like them others can't deny
Lay it down like the floor and blaze, blaze

Blaze it up, blaze it up
Blaze it up, blaze it up
Blaze it up, blaze it up
Blaze it up, blaze it up
Turn me up till I break, I break
Get your cards try to knock I be the queen of spades
Live it up and drink up, no time to waste
Get closer light it up and burn down the flame

Like body to body, swept down my pace
Your body's my hobby, swept down your pace
Like body to body, swept down my pace
Your body's my hobby, swept down your pace
I switch them, change them if they don't act right
Not another can no other ever match my flight
I lay it down like them others can't deny
Lay it down like the floor and blaze, blaze

Blaze it up, blaze it up
Blaze it up, blaze it up
Blaze it up, blaze it up
Blaze it up, blaze it up

[Busta]

I hope y'all got your blowtorches ready, come on
It's the guardian appeal, lock it down and making

chicks
Say he's so supreme,
Make you wanna throw your hands up I wanna see em
Chicks will see the kid and be wishing that they could
meet him
Line them up, then I step to the front, and then I greet
them
Depending on this â€¦ I determine how I see them
Then I, I keep the proper nourishment to feed them with
the stick
Then I make them really love the way I beat them
Especially when I used to with the station wagon bm
Was always in the back ready to poke somebody bm
A lot of dudes act tough, but we don't believe them
They always read each other, you should never try to
read them
Slide over baby, you know that you don't really need
him
He's jealous and he only wanna take away your
freedom
Watch, camera flash when I pull up in my rolls and I
pose

Blaze it up, blaze it up
Blaze it up, blaze it up
Blaze it up, blaze it up
Blaze it up, blaze it up x 2
Cause I want it like that
And you touch me like now
Blaze it up, blaze it up,
Blaze it up, blaze it up,
Oh yeah.
