(RedOne... Kat DeLuna and Darin...)

Baby, you is the diamond that'll last forever
And I just can't take a single step without you
(Hey) Baby to you, I'll always be a faithful lover
Cause my heart can't make a single beat without you
(Yeah, hey, hey)

You make me fly (fly), you get me high (high)
You turn my world to such a better place (yeah)
Your crazy touch (touch),
The sweetest rush (rush) is something to save my life

I wanna spend my nights and days between your arms
Everyday breathing your love
And even in my dreams, I wanna be kissing your lips
Baby, breathing your love
Breathing your love (love, love), Baby, breathing your
love (love, love)
Breathing your love (love, love), Baby, breathing your
love (love, love)

Baby, you, only you can make me recover
The lost parts of me, I thought they'd gone a long time
ago
With you, life rhymes like the best love letter
I was just an empty song until you stepped into my
show

You make me fly (fly), you get me high (high)
You turn my world to such a better place (yeah)
Your crazy touch(touch),
The sweetest rush (rush) is something to save my life

I wanna spend my nights and days between your arms
Everyday breathing your love
And even in my dreams, I wanna be kissing your lips
Baby, breathing your love
Breathing your love (love, love), Baby, breathing your
love (love, love)
Breathing your love (love, love), Baby, breathing your

love (love, love)

I wanna have that crazy love,
Want it running in my blood
I wanna take it over me, over me, over me, yeah

I wanna spend my nights and days between your arms
Everyday breathing your love
And even in my dreams, I wanna be kissing your lips
Baby, breathing your love

I wanna spend my nights and days between your arms
Everyday breathing your love (hey...)
And even in my dreams, I wanna be kissing your lips
Baby, breathing your love (I wanna breathe in your
love)
Breathing your love (love, love), Baby, breathing your
love (love, love)
Breathing your love (love, love), Baby, breathing your
love (love, love)

Breathing your love (love, love), Baby, breathing your
love (love, love)
