[Opening] You wanna know what I really want?
I'm looking for something in particular
I'm looking for,
A real man
That's right
Let's go

[Verse 1] To all my ladies in the world who ever dated a
punk
Who had your paper every dinner at the table he's
drunk
There should be a boot camp just for guys who act up
Got with geeks and losers
Gotta learn to do right

[Bridge] Don't want no back and forth or maybe so back
in my face
I need the type of fella who
Now if this is a battle to the bottle always ready to show
Babe I suspect the song is ready to go

[Chorus] I need a real man
The one who strong
The one who gets me what I want
Tells me even when I don't
I need a real man
Who can catch me when I fall
Be the hero on my eye
Keep me safe around the clock
A real man
I need a real man
A real man
A real man

[Verse 2] Now I ain't talking about the ones who've got it
all figured out
Everything from
I've seen the most of it
Never settle for less
Gotta be intelligent but slightly upset

[Bridge] Don't want no back and forth or maybe so
back in my face
I need the type of fella who
Now if this is a battle to the bottle always ready to show
Babe I suspect the song is ready to go

[Chorus] I need a real man
The one who strong
The one who gets me what I want
Tells me even when I don't
I need a real man
Who can catch me when I fall
Be the hero on my eye
Keep me safe around the clock
A real man
I need a real man
A real man
A real man
A real man
I need a real man
A real man
A real man

[Bridge] Don't want no back and forth or maybe so back
in my face
I need the type of fella who
Now if this is a battle to the bottle always ready to show
Babe I suspect the song is ready to go

[Chorus] I need a real man
The one who strong
The one who gets me what I want
Tells me even when I don't
I need a real man
Who can catch me when I fall
Be the hero on my eye
Keep me safe around the clock
A real man
I need a real man
A real man
A real man
